Fast and efficient lighting control system setup

Designed with the system installer and integrator in mind, System Builder is a comprehensive commissioning platform from Philips Dynalite.

This user-friendly and intuitive application sets a new benchmark for efficient lighting control system setup.

Philips Dynalite System Builder
Fast and efficient lighting control system setup

- **New and improved set-up templates** – Provides a simple and intuitive interface for access to advanced system functionality, allowing flexibility to modify, customize or create specific tasks if required.

- **Faster commissioning times – Includes a series of common device settings bas**ed on typical lighting control scenarios. Tailor to your project, save and replicate across other sites as required.

- **Virtual panel** – Control any area of the system directly, run sequences and test final operations.

- **Complex functionality made simple** – Manage logical grouping of lamps and other system hardware elements using simple graphical representations.

- **Maintenance made easy** – Print out project floor plans with fixture details, including DALI addresses, to facilitate maintenance planning.

- **Live data details** – The status of each lamp is visually represented using icons, which change color to reflect current lighting levels.

- **Monitor the whole system** – Inbuilt network monitor details and logs all Philips Dynalite network traffic, as well as DALI network traffic.

Specifications
Due to continuous improvements and innovations, specifications may change without notice.

Software Requirements

Operating System	Windows 8.1 Windows 10
Microsoft.NET	Version 4.8 or later

Hardware Requirements*

Computer	PC (or Mac running Windows)
Processor	Intel (or compatible) i5 2.5 GHz dual core or higher
RAM	≥ 4 GB
HDD	≥ 10 GB available
Display Resolution (Minimum)	≥ 1024x768
Display Resolution (Recommended)	≥ 1920x1080

*   These requirements apply to commissioning small projects. Larger projects may require improved hardware specification.
