# Dynalite Control 1.5

Mobile app

Specification Sheet

Intuitive mobile interface

The Dynalite Control app (the "Software Services") provides Apple devices with intelligent control of the Dynalite system in both residential and commercial applications.

Wrapped in a modern and intuitive user interface, this app enables you to manage scenes, control individual channels, and apply schedules.

Key Features

- **Plug-and-play** – Connect the mobile app to the Dynalite system and it's ready to use.

- **Scene management** – Recall and edit predefined lighting scenes.

- **Scene scheduling** – Trigger lighting scenes based on a schedule.

- **Simple connection** – Connect to a Dynalite Ethernet gateway via your local WiFi network.

dynalite.com

Compatibility

The Control app is designed to work exclusively with Dynalite systems and devices.

Operating Environment

The Dynalite Control app is installed locally on your iOS device.

The following requirements are needed on your device to support the Software Services:

iOS	
Compatible Devices	iPhone / iPad
Operating System	iOS 13.0 or later

Ordering

Available free of charge from the Apple app store.

Policies and Notices

Security

The Software Services are covered by the Signify Security Statement, which is available at signify.com/global/product-security/professional-systems-and-services.

A product-specific security statement may be available on request at Signify's discretion and subject to confidentiality conditions.

Usage Restrictions

The Software Services should not be used for any purpose other than stated in this specification sheet.

The Software Services and any data generated or processed thereby must not be used or relied upon for applications or activities where the use or failure of the Software Services could lead to death, personal injury, or environmental damage.

Applicable Terms and Conditions

The access and use of these Software Services are subject to our most recent Terms of Software Services as published at: Terms of Software Services

Data

If we process personal data, we will do so in accordance with our Data Processing Agreement and applicable data processing schedule(s) or Privacy Notice, as applicable to our role in that processing.

Software End of Life Policy

The Software Services are subject to Signify's End of Life policy that can be found here: Policies & Announcements

Open Source Software

An overview of included open source software is available in the Software Services menu under **About > Licenses**.

Update / Upgrade

Signify Dynalite may release updated and/or upgraded versions of the Software Services from time to time, at its discretion. For any such update or upgrade, the main changes are indicated in the release notes. Changes may not be reflected in an update of this document.

Disclaimer

This Software Specification represents the current specification of the Software Services as of the date of publication of this document but is provided 'as is' without warranty of any kind, whether express or implied. This information is subject to change without notice. Customers are responsible for making their own independent assessment of the Software Services and the use thereof. Any commitments or liabilities in respect hereof are exclusively defined in the agreements between Signify Dynalite and its customers.

More detailed information about the Software may be available on request but at Signify's discretion.
