Stylish power, data, and audiovisual wiring solutions for any project

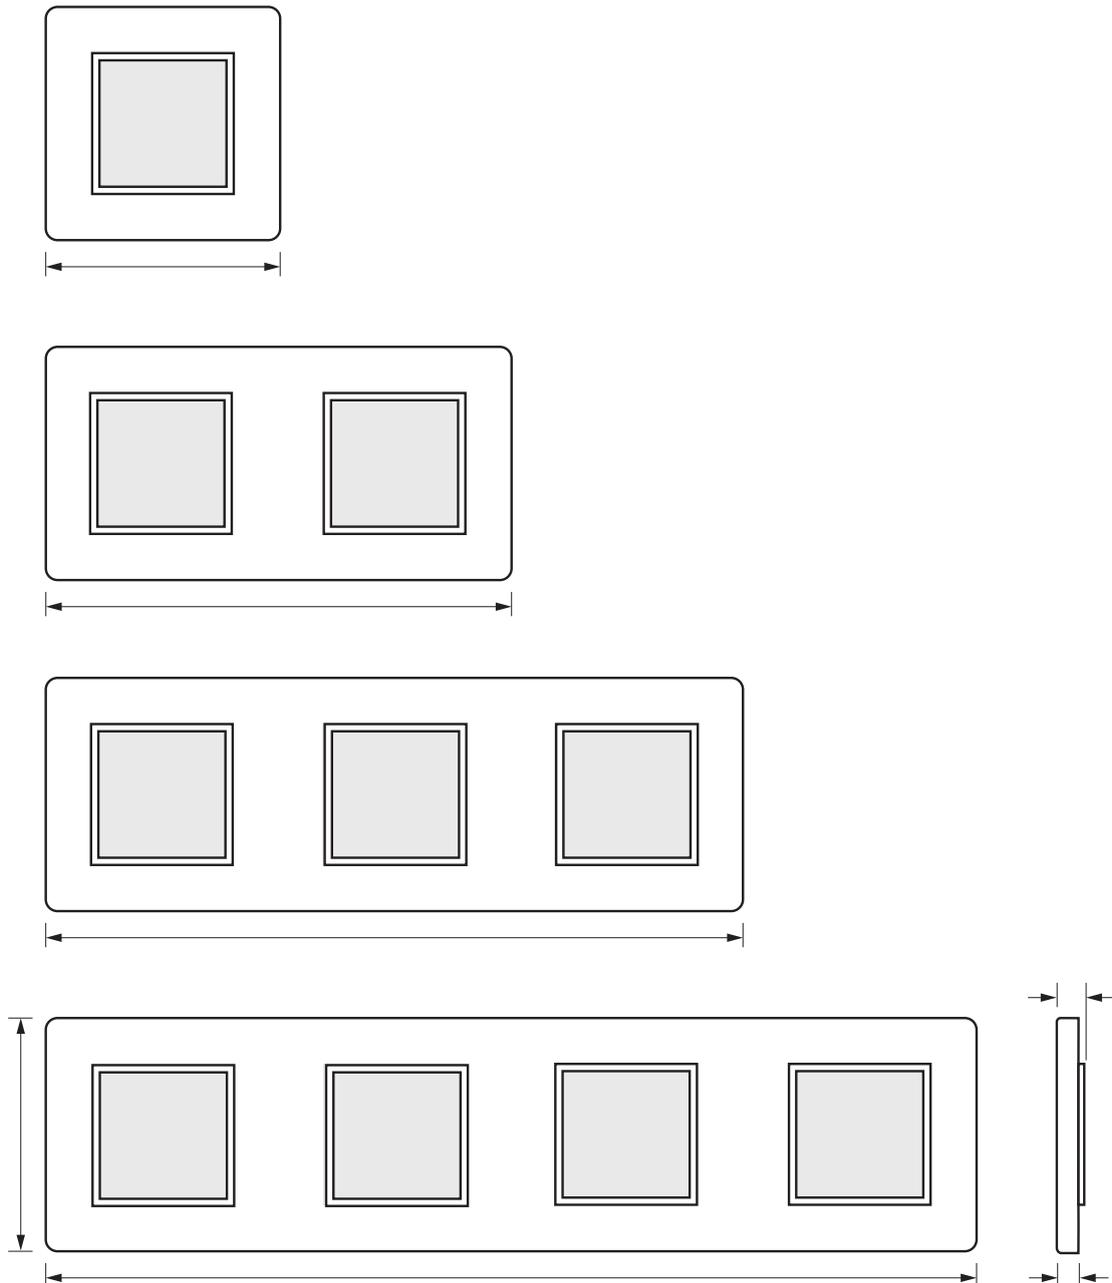

Dynalite has partnered with Simon Electric to exclusively provide the perfect combination of power and connectivity options for a complete project offering.

Our frames, available in one- to four-gang sizes, are designed to match Antumbra panels in size and colour.

Key Features

- **Antumbra styling** - Designed to match the Antumbra range of user interfaces for a consistent look and feel throughout your project.
- **Range of frame sizes** - Holds any combination of one to four modules per frame.
- **Décor-matching options** - Frames and modules are available in a range of attractive metallic finishes.
- **Designed to pair with any Simon Electric V8 electrical module** - Mains outlets, networking ports, audiovisual connectors, room status indicators, doorbells, and more.
